

License (user) agreement
for the use of
software for mobile devices
«Slovo»

A precondition of your right to use the Slovo application (hereinafter referred to as «Application») is your carefully read and consent to the present license (user) agreement (hereinafter referred to as «Agreement»).

Your use of the Application in any form of interaction with it for any purpose implies and confirms your full, unconditional and irrevocable acceptance of all the terms of the Agreement.

You are prohibited from using the Application in any form of interaction with it for any purpose if you do not accept the terms and conditions set forth in the Agreement in whole or in part.

1. Application.

1.1. The Slovo software is an application for Apple iOS version 14.0 or newer.

1.2. The Application is created and functions for instant messaging purposes, allowing the user to make voice calls, exchange images, documents and other content.

2. Copyright holder.

2.1. The exclusive right to the Application and all its components belongs to Individual Entrepreneur Anna Igorevna Kulikova, PSRN: 317774600449930 of September 26, 2017, TIN: 770173026495, postal address: 121059, Moscow, Berezhkovskaya nab. 64, registered in the Russian Federation in accordance with the legislation of the Russian Federation (hereinafter referred to as the "Rights Holder").

3. General Provisions

3.1. This Agreement shall establish the terms and conditions of use of the Application, the rights and obligations of the entities associated with the use of the Application, and is entered into between any person using the Application in any of the possible ways (hereinafter referred to as the "User") and the Licensor.

3.2. By copying or otherwise reproducing the Application, installing it on the mobile device or using the Application in any other way, the User shall express their full and unconditional consent to all the terms and conditions of this Agreement without exception.

3.3. The use of the Application is allowed only under the terms of this Agreement. Non-acceptance by the User of the Agreement in whole or in part shall entail an immediate ban for such User to use the Application in any form and for any purpose.

3.4. Free use of the Application under the terms of this Agreement is allowed only for personal non-commercial purposes. Using the Application in any other ways and on any terms and conditions other than those specified in the Agreement is allowed only on the basis of a separate agreement with the Rights Holder.

3.5. By using the Application the User, among other things, agrees that an integral part of this License is the "Privacy Policy", posted on the Internet at <https://imagon.org/Slovodocs/engconf.pdf>, the terms of which fully apply to the use of the Application.

The said document (including any of its separate terms and conditions) may be changed unilaterally by the Licensor without any special notice, the new version of the document shall enter into force from the moment of its publication, unless otherwise provided by the new version of the document itself.

3.6. The law of the Russian Federation shall apply to this Agreement and all relations related to the use of the Application and any claims or lawsuits arising out of this Agreement or the use of the Application shall be filed and considered in the court at the location of the Rights Holder (contractual jurisdiction).

3.7. This Agreement may be presented in different language versions, however, in case of contradiction between the terms of the Agreement in Russian language and any other language, only the Russian language version will be legally valid. The Russian version of the Agreement is available at: <https://imagon.org/Slovodocs/RuAgr.pdf>.

3.8. The functionality of the Application may be unavailable or limited depending on the model of the User's mobile device, on the User's region, as well as on the presence or absence of separate contracts and agreements with the User regarding such functions. Features shall be deemed inaccessible (limited) if the User cannot use them explicitly. The use of any technical or software methods to bypass these restrictions is prohibited.

3.9. The Application (including all of its parts) is provided on "as is" terms. The Licensor does not give any warranties regarding the error-free and uninterrupted operation of the Application or its separate components and/or functions, the compliance of the Application to the specific goals and expectations of the User, does not guarantee the authenticity, accuracy, completeness and timeliness of the materials and data contained therein, and does not give any other warranties not expressly specified in this License.

In accordance with the abovementioned the Rightholder shall not be liable for losses and damages of any kind, including without limitation direct damages, lost profits, even if they resulted from the circumstances notified by the User to the Rightholder, and the Rightholder shall not be obliged to pay compensation including, but not limited to, in cases related to:

- any inaccuracy of information in the Application, as well as interruptions and delays in the provision of services;
- infringement by any person of any intellectual property rights of third parties in connection with the use of the Application;
- any damages caused by the effects of viruses or other malicious software that may infect the User's mobile device, damage the data and other objects, if it resulted from the use of the Application or receipt of e-mails from the Rights Holder and its related persons;
- accessibility, use and/or disclosure of any information or messages or any materials provided by the User to the Application by unauthorized third parties;
- all warranties and obligations, which are covered by this clause.

3.11. The Right Holder does not guarantee that the operation of the Application will be uninterrupted and error free.

4. License

4.1. The Licensor gratuitously, on the terms of a simple (non-exclusive) license, grants the User the non-transferable right to use the Application exclusively on the territory of the Russian Federation in the following ways:

4.1.1. To use the Application for its direct functional purpose, for which purpose to make its copying and installation (playback) on the mobile device(s) of the User, without limitation of the number of such devices (one device - one copy of the Application). When installed on each mobile device each copy of the Application shall be assigned an individual number which shall be automatically reported to the Rights Holder.

4.1.2. Reproduce and distribute the Application for non-commercial purposes (free of charge).

5. Restrictions and Prohibitions

5.1 Except for the uses to the extent and in the manner expressly provided by this Agreement or the RF legislation, the User shall not modify, decompile, disassemble, decrypt or perform any other actions with the object code of the Application, aimed at obtaining information about the algorithms used in the Application, create derivative works using the Application and its component parts, or perform (allow to perform) any other use of the Application, any components of the Application, or its components.

5.2 The User shall not be entitled to reproduce and distribute the Application for commercial purposes (whether or not the User or its affiliates charge any fee), including within the collections of software products, without the prior written consent of the Licensor or a separate agreement with the Licensor.

5.3. The User may not distribute the Application in any form other than that in which they received it, without the prior written consent of the Licensor or a separate agreement signed with the Licensor.

5.4 The Application shall be used (including its distribution) under the names, trademarks and affiliations: "Слово", "Slovo", "Individual Entrepreneur Kulikova Anna Igorevna" (all variations of spelling). The User is not entitled to change and/or delete the name of the Application, copyright notice, trademarks or other indications of the Rights Holder and/or authors.

5.5. The User is prohibited from posting and/or distributing any information that, in the opinion of the Copyright Holder, is undesirable and/or offensive, does not correspond to the purposes of creating the Application, infringes on the interests of other Users and other third parties, or for other reasons is undesirable for posting in the Application.

6. Terms and Conditions of Use of the particular features of the Application

6.1. The use of the functions of the Application shall be possible only if you have access to the Internet. The User shall independently obtain and pay for such access subject to the terms and conditions and at the rates of their telecommunications operator or Internet access provider.

6.2. All data on the use of the Application, transmitted in accordance with this Agreement shall be stored and processed in accordance with the Privacy Policy (<https://imagon.org/Slovodocs/engconf.pdf>).

6.3. The User may be offered additional paid functionality of the Application, which is an integral part of the Application (cannot be recognized as a separate product from the Application). By default such functionality is limited for use by the Rights Holder for all Users, and authorized access to it may be obtained by individual User only in consequence of a separate agreement with the Rights Holder which is expressed in acceptance of the offer of the Rights Holder. The Right holder declares and guarantees that when the User makes payment for additional paid functionality of the Application, the Application does not collect personal data in the form of the User's bank data itself. Payment for the additional paid functionality shall be made only through the payment system implemented in the mobile application store "App Store" (Apple Inc.). The processing of personal data of Users in this case is the responsibility of Apple Inc.

7. Liability

7.1. The Licensor shall not be liable for any direct or indirect consequences of any use or inability to use the Application (including all of its components) and/or damages caused to the User and/or third parties as a result of any use, inability to use or inability to use the Application in whole or its individual components and/or functions, including due to possible errors or failures in operation of the Application, save as expressly provided by the law.

7.2. Information not produced by the Copyright Holder, to which the User gets access, or which the User receives when using the Application, is provided, entered or posted, and is in no way controlled, verified or confirmed by the Copyright Holder.

7.3. Any User can report content that, in his opinion, violates the current legislation and/or the User Agreement. The copyright holder, within 24 hours after receipt, reviews the received appeal and takes the necessary measures if it is confirmed if the content is illegal.

7.4. Any User can restrict another User's access to sending messages to his address by adding such a User to the blacklist.

7.5. The User hereby acknowledges and agrees that when using the Application the following technical information may be transmitted to the Title Holder in automatic mode: the type of operating system of the User's mobile device, the version and identifier of the Application, statistics on the use of the Application functions, as well as other technical information.

7.6. All questions and claims related to the use/impossibility to use the Application, its components and functions, as well as possible violation of the law and/or rights of third parties by the Application or Users in connection with the use of the Application shall be sent via the feedback form at <https://imagon.org>.

8. Updating and changing the Application

8.1. The terms of the Agreement in its current version shall apply to all versions of the Application published during the period of its validity. By agreeing to the installation of the update/new version of the Application, the User accepts the terms of this Agreement for the relevant updates/new versions of the Application, if the update/new version of the Application is not accompanied by other license (user) agreement.

8.2. The Application may include third party software as its separate components. The third-party software license agreements that are part of the Application are an integral part of this Agreement and their terms are binding on Users to the extent not inconsistent with the Agreement. Acceptance of the terms of this Agreement shall indicate the User's full and unconditional acceptance of the licenses set forth below. Third-party software that is part of the Application includes:

9. Amendments to this Agreement

9.1 This Agreement may be modified by the Licensor unilaterally, without personal notice to the User. The proper way of notifying the User about the changes of the Agreement is publishing the amended

Agreement on the page: <https://imagon.org>. The aforementioned changes to the Agreement come into force from the date of their publication, unless otherwise specifically stated in the text of the published amended Agreement.
